REGULATION REVIEW

Earhart said when a doctor only has Parts I, II, and physiotherapy that he or she is not being granted licensure in the State of Nebraska. In the past, completion of Parts I and II was the standard for licensure.

The June 29, 2004 Rules and Regulations state that individuals pursuing licensure in the State of Nebraska must have Parts I, II, and physiotherapy and Part III (Written Clinical Competency Examination given by the National Board of Chiropractic Examiner), as well as either Part IV (National Board of Chiropractic Examiners Practical examination) or the National Board of Chiropractic Examiners Special Purpose SPEC exam. Hansmeyer will research the issue to determine how many individuals are seeking licensure in the State of Nebraska who only have Parts I and II. If the number affected is high, an additional meeting would be added in June to expedite the discussion concerning this matter.

ADJOURNMENT

There being no further business, the meeting was adjourned at 10:40 a.m.

Respectfully submitted,

Lance Earhart, DC, Secretary
